Calgary, Alberta - HAZCO is pleased to announce the appointment of Ian Radzichowsky to "Corporate Environment Manager". Ian will be based out of HAZCO's head office in Calgary. Ian's role will be to provide day to day waste management and regulatory support to all HAZCO departments including landfills, projects, transportation, regional offices and waste services. He will also help to ensure consistency of programs, operations and systems throughout our company. His role also includes the identification, development and review of both new and existing waste management options.

HAZCO Environmental Services is a leading provider of environmental and decommissioning solutions. HAZCO's comprehensive services are backed by our strong corporate infrastructure, dedicated personnel, extensive project experience and our specialized equipment assets. HAZCO's commitment to safety and our track record for the professional and compliant operation of our facilities make us a preferred contractor and service provider to major corporations and government agencies.
