HAZCO Announces New Oil Sands Development and Service Manager

Calgary, Alberta - HAZCO is pleased to announce the appointment of Ms. Leslie Burke to the position of "Oil Sands Development and Service Manager" based in Fort McMurray, Alberta. Leslie will continue to develop HAZCO's business in the Fort McMurray area and in particularly with the Oil Sands projects.

Leslie obtained a Bachelor of Science degree from Mount Allison University before coming to HAZCO in 1995 with a background in environmental waste management and laboratory analysis. She began her career with HAZCO in Calgary as Transfer Station Coordinator, was promoted to Operations Manager - Waste Services, then to Manager – Environment and Compliance. She has been a key player in the development of the Waste Services Division of HAZCO and is a valuable resource for all of HAZCO's operating groups.

Leslie can now be reached at:

Phone: (780) 714-3372

Cell: (780) 881-3876

E-mail: lburke@hazco.com

HAZCO Environmental Services is a leading provider of environmental, decommissioning and waste management solutions. HAZCO's comprehensive services are backed by our strong corporate infrastructure, dedicated personnel, extensive project experience and our specialized equipment assets. HAZCO's commitment to safety and our track record for the professional and compliant operation of our facilities make us a preferred contractor and service provider to major corporations and government agencies.
