## ANNUAL HHW EVENT – NORTH OKANAGAN REGIONAL DISTRICT

**Project Value:** \$150,000

**Date:** October 2005, 2006, 2007

**Contaminant:** Multiple

**Owner:** Cities of Vernon, Lumby & Enderby, BC

**HAZCO Key Team Members:**

Dan Podmorow, Kara Blais & Waste Services Team

### PROJECT HIGHLIGHTS

- Conducted 3 – 1 day Roundups simultaneously
- Hazco Services worked in parallel with the Product Care Program and E-Waste Roundup creating a highly successful diversion of waste
- Traffic Flow in excess of 1,000 vehicles translating into approximately 80 drums (by Hazco) per event, 2 semi-trailers of E-Waste and a semi-trailer of items qualifying for the Product Care program – all diverted from Landfills

### Typical Waste Streams:

- Corrosive liquids and solids
  - Toxic liquids and solids
- Flammable liquids and solids
- Oxidizing liquids and solids
  - Aerosols
  - Paint
  - Oils
  - Glycols
- Non-regulated liquids and solids
  - Mercury
  - PCB Ballasts
